THE BARRE DAILY TIMES

The average daily circulation of the Barre Daily Times for the week ending Saturday was

2,804

copies, the largest paid circulation of any daily paper in this section.

A GAIN OF 400

In the daily circulation of the Times since Jan. 1st is something no other Washington county daily can show.

The circulation statements of the Times can always be verified by anyone who so wishes. Press room, circulation books, paper bills and all that pertains to the circulation of the Times are open to the inspection of all. In there any other Washington county daily that will show up in like manner?

Barre's latest aspirant for banking honors is quite a lusty youngster, and starts off with pretty good prospects.

In one school building in New York city, 5,000 children—as many as half the population of Barre—are to be accommodated. The building contains 64 class rooms. This can be called education on a large scale.

A New York man recently fell from the top of an eight-story building to the ground. In order to convince those who went to pick up his remains that he was thoroughly alive, he danced a jig. Such proof must have been conclusive.

In Alton S. Sherman Barre contributed a strong man for the city of Chicago. He was the sort of men who would have brought Vermont out of the rut in which she was wallowing half a century ago, had he remained. Instead of casting his lot in the Windy City.

Some newspapers maintain that agricultural fairs are on the decline but the attendance at this fall's fairs in Vermont is anything but a substantiation of that claim. In almost every instance the attendance has been large and at many of them there have been record-breaking crowds. No, the agricultural fair is here to stay for a considerable time longer, or until that time when Vermont shall have outgrown that title of being an agricultural commonwealth.

"I felt satisfied that success awaited me, and I struggled for the goal which I felt sure I would reach some day," says one man in speaking of his early career. Such assurance as that takes off the whole edge of the struggle for success and renders the attaining of it just a wishy-washy proceeding, while the one so marked for success beforehand loses the rest of the thing. Still, some men were born with an over developed bump of self-confidence.

After quoting the opinion of Judge Lore on the subject of lynching as brought out by the recent episode in Delaware, the Montpelier Argus says: "There are crimes for which no punishment would be too severe. There is no crime so heinous that should be punished by the mob, outside the course of law, for by taking that course the vengeance wrought on the individual becomes an attack on the state, on government itself." The opinion of the Montpelier contemporary hits exactly the truth.

Northfield furnishes some decidedly humorous incidents for a license town. On top of the story of the Montpelier woman who went back home after visiting in Northfield declaring that she was glad to have visited in so fine a prohibition town as Northfield; The News tells another which is a good duplicate and it vouches for the accuracy of it, too. It was a story of a well-meaning woman, no doubt, but one who failed to bear in mind that prohibition had been in force for fifty years. During the heat of the license campaign the lady related her experience as follows—"I remember 18 or 20 years ago when saloons were running in Northfield and we had to pass by them every day. I don't want to see license again." She may have her wish and never see the same kind of license again.

ABOUT THE STATE.

Items of Interest Gleaned From Our Exchanges.

The condition of Dr. John M. Allen, who was badly injured in the automobile accident at the fair grounds in St. Johnsbury, last week Thursday, is improving and he is now believed to be out of danger.

Rev. H. A. Goodhue, for 16 years pastor of the Congregational church in Westminister, has resigned and will move to Brattleboro to live. Mr. Goodhue was the representative from Westminster in the last legislature.

Assistant Secretary of the navy Charles H. Darling has arrived at his home in Huntington for a visit. He will remain until about Oct. 1. Soon after that date he will leave for an extended trip to the Pacific coast, during which he will visit the different navy yards and stations on that coast.

There have been but few arrests for drunkenness during the past month, says a Bellows Falls correspondent. Citizens who are watching the working of the new license law are saying that conditions are certainly no worse than they used to be under prohibition, while many profess to believe they are better.

A petition in bankruptcy has been filed by John F. Bigelow of Brattleboro. He is a stone mason and his unsecured liabilities are \$425.63; assets \$320, of which \$220 is exempt. Charles T. Smith, a brakeman, of Lyndon has filed a petition in bankruptcy with liabilities of \$304.10 and assets of \$170, of which \$150 are claimed exempt.

At the 31st annual meeting of the Vermont Branch of the Woman's Board of Missions to be held in the first Congregational church at Bellows Falls Wednesday, September 30, services will be held at 9:30 a. m. and 2 and 7:30 p. m. The speakers will be Mrs. C. C. Tracy at Marshfield, Turkey, Dr. Rose A. Bower of West Africa, Mrs. C. C. Daniels and Miss Alice Kyle of Boston. The women of Bellows Falls offer to entertain all members of the auxiliaries who can attend the meeting.

A force of men have begun to dismantle the old steamer Vermont at Shelburne Harbor and the famous boat will soon be but a memory. It was thought when the steamer went out of service last year that she might possibly be needed this season to run excursions or to take the place temporarily of some of the line boats. This was found unnecessary, however, and she will now be cast aside and will be of no further service. The remains of many such abandoned hulls are slowly rotting away here and this will be but one more of the historic memories of early lake navigation. The death of a ship is almost human in its interest.

AS TO CLERK'S FEES.

Washington County Official Buils the Market.

Montpelier, Sept. 22.—Naturalization cases in Washington county court will be pigeon-holed until the United States court which meets shortly at Rutland gives some decision on the naturalization law recently enacted by Congress. Under the new law it is necessary for each applicant to make petition to the court. County Clerk M. E. Sallie holds that such a petition must be subject to the same fees as petitions coming under the state laws, which ruling makes the fee a large one. The fee for filing the petition is \$3, hearing on the petition \$3, and judgment \$3, making a total fee of \$9, which is a big sum when it is taken into consideration that they have been railroaded through at \$2 a head before. An immigration officer was in this city recently and conferred with the county clerk with the result that the above course was adopted here. When the first case came up in this city yesterday afternoon, the applicant being John English of Warren, a Scotchman, Judge Haselton thought it best to let the matter rest until more light could be got from the United States court's action at Rutland. The county courts will follow the course taken by that court.

GOWN GOSSIP.

The bell-shaped sleeve predominates on all except the severest tailor gowns. Broadtail cloth, wonderfully like the fur itself, furnishes the material for white evening wraps.

Many of the new wraps, especially those designed for evening wear, appear in variations of the old fashioned dolman shape.

Deep brown silk fringe trims a cape and stole of very dark blended mink. In fact, about half the fur capes and shoulder pieces are trimmed with fringe.

The hats intended for wear during the next three months, or until the winter sets in, are almost invariably small. Toques and turbans predominate, and there are many three cornered effects.

Lace is no longer elaborate enough in itself to satisfy the wearers of hand-made gowns. One sees painted and embroidered lace, spangled lace, lace with the design outlined in colored or black silks and lace combinations of all kinds and descriptions.

The magenta shades are coming into favor again. They are rather crude and hot by themselves, but combine excellently with wood brown, white and certain shades of blue and purple. Hats made from several shades of magenta are trying, but very handsome.—New York Post.

The Gridiron Game.

Now the football gladiators are preparing for the fray. And the interest grows keener as they near the starting day.

There is rallying of players who have by their deeds of pluck and valor in the rough and tumble game.

They are steering clear of barbers, for they're cultivating hair.

On the heads that in the summer they were glad to have quite bare. For such cushions they'll be needing when they fall with fearful thud.

On the ground with hardened surface or go sprawling in the mud.

They are toughening the muscles that will oft be sorely tried In the struggles with the husky fellows on the other side.

Lungs they're freely exercising, so that wind they'll never lack.

When they for the goal are sprinting or are swiftly running back.

Secret signals they're devising, and they're working up new stunts.

In the handling of the pigskin and the passes and the punts. Many hours they spend in practice, and all sorts of tricks they play.

With intent to fool the rivals they'll be meeting in the fray.

Soon the football gladiators, from the youths to brawny men, Will their fighting tops be donning and be lining up again.

Soon the rooters will be joining in vociferous acclaim As they cheer the doughty players in the rough and tumble game.
